

Learning Objective

I can understand the location of hot and cold countries around the world.

Which Hemisphere?

Northern Hemisphere

Southern Hemisphere

Which Hemisphere?

Can you name a country, continent or ocean in the Northern or Southern Hemisphere?

Hot and Cold Climates

What is the difference between weather and climate?

Weather

Weather is the day to day changes that we see happen. So, it can be sunny one day and rainy the next.

Climate

Climate is the average weather usually taken over 30 years for a particular place.

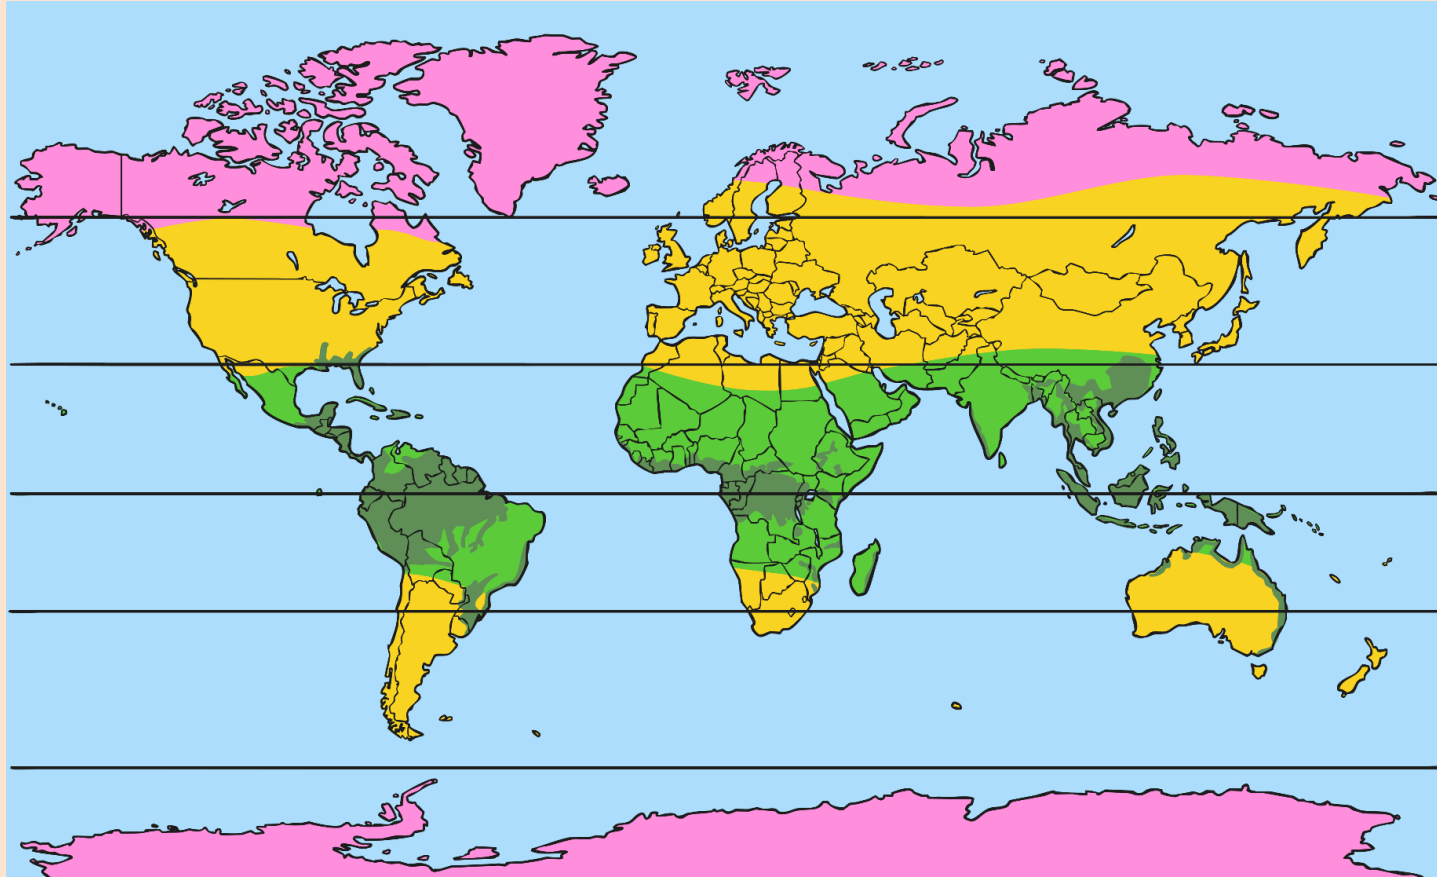

What is the weather like in our country?

Is it hot / cold / changeable?

What would you like our weather to be like?

Countries have different types of 'climate' around the world; they can be hot or cold.

Hot and Cold Climates

Cold or Polar Climates

Finland

Arctic

Norway

Greenland

Warm Climates

Australia

North Africa

Middle East

Mexico

Tropical Climates

Philippines

Indonesia

India

Caribbean

Temperate Climates - UK

Polar Bears to Pandas

What animals live in **hot** countries?

What animals live in **cold** countries?

Animals from Cold Countries

Animals from Hot Countries

Where Do They Live?

Using your activity sheet, cut out and stick the animals in the correct climate zones on your world map.

Where do the animals live? You could use an atlas and the Internet to help you.
