

Science

States of Matter

Compare and group together everyday materials on the basis of their properties, including their hardness, solubility, transparency, conductivity (electrical and thermal) and response to magnets.

Give reasons, based on evidence from comparative and fair tests, for the particular uses of everyday materials, including metals, woods and plastic.

Computing

Communicating

*Can use instant messaging to communicate with class members. E.g. On Seesaw.

*Can save an image document as a gif or i peg. file format using the 'save as' command.

*Take part in an external online workshop where the communication is through a video call.

*Use email as a communication tool to collaborate with other children. E.g. To work together on a project.
